

BLRT
G R U P P

**Overview of Industrial Holding
BLRT Grupp**

On June 12, 1912 was decided to establish Russo-Baltic Shipbuilding Yard in Tallinn.

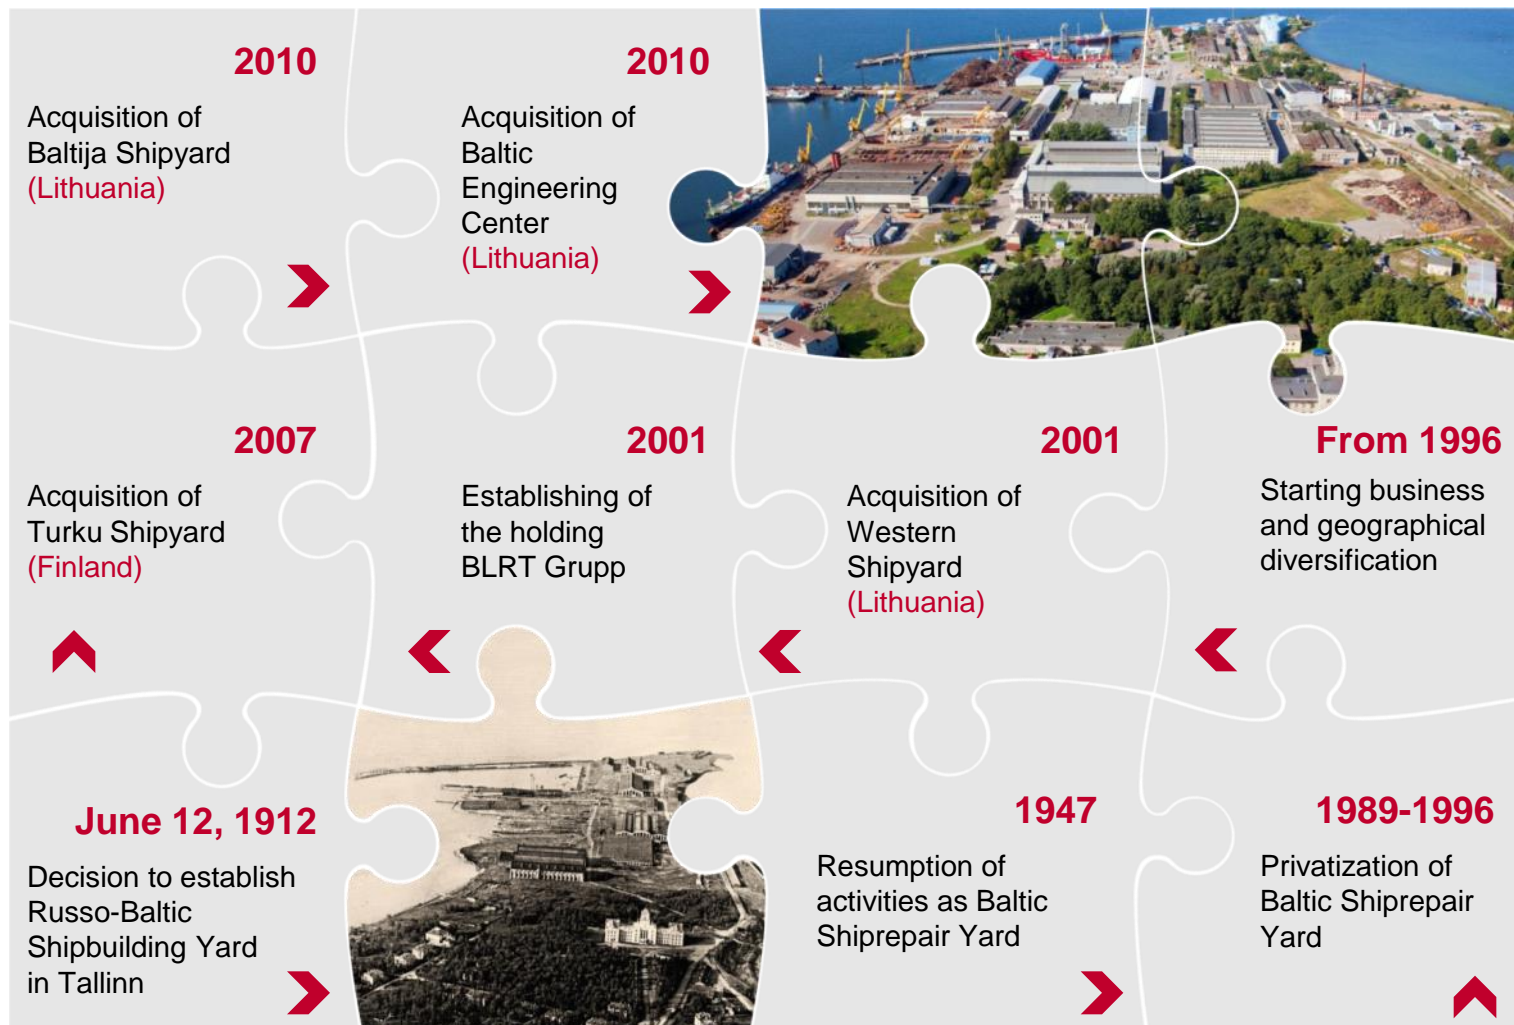

The Russo-Baltic Shipbuilding Yard's floating dock with displacement of 40,000 tons was constructed in 1914.

In 1915, the first vessel, destroyer Gavril was launched.

Manufacturing area of Russo-Baltic Shipbuilding Yard in Tallinn, Estonia, in 1916.

Manufacturing area of BLRT Grupp in Tallinn, Estonia nowadays.

Metal Products

Finland

- 2 sales centers
- 1 service center

Estonia

- 2 service centers
- 4 sales centers

Latvia

- 1 service center
- 2 sales centers

Lithuania

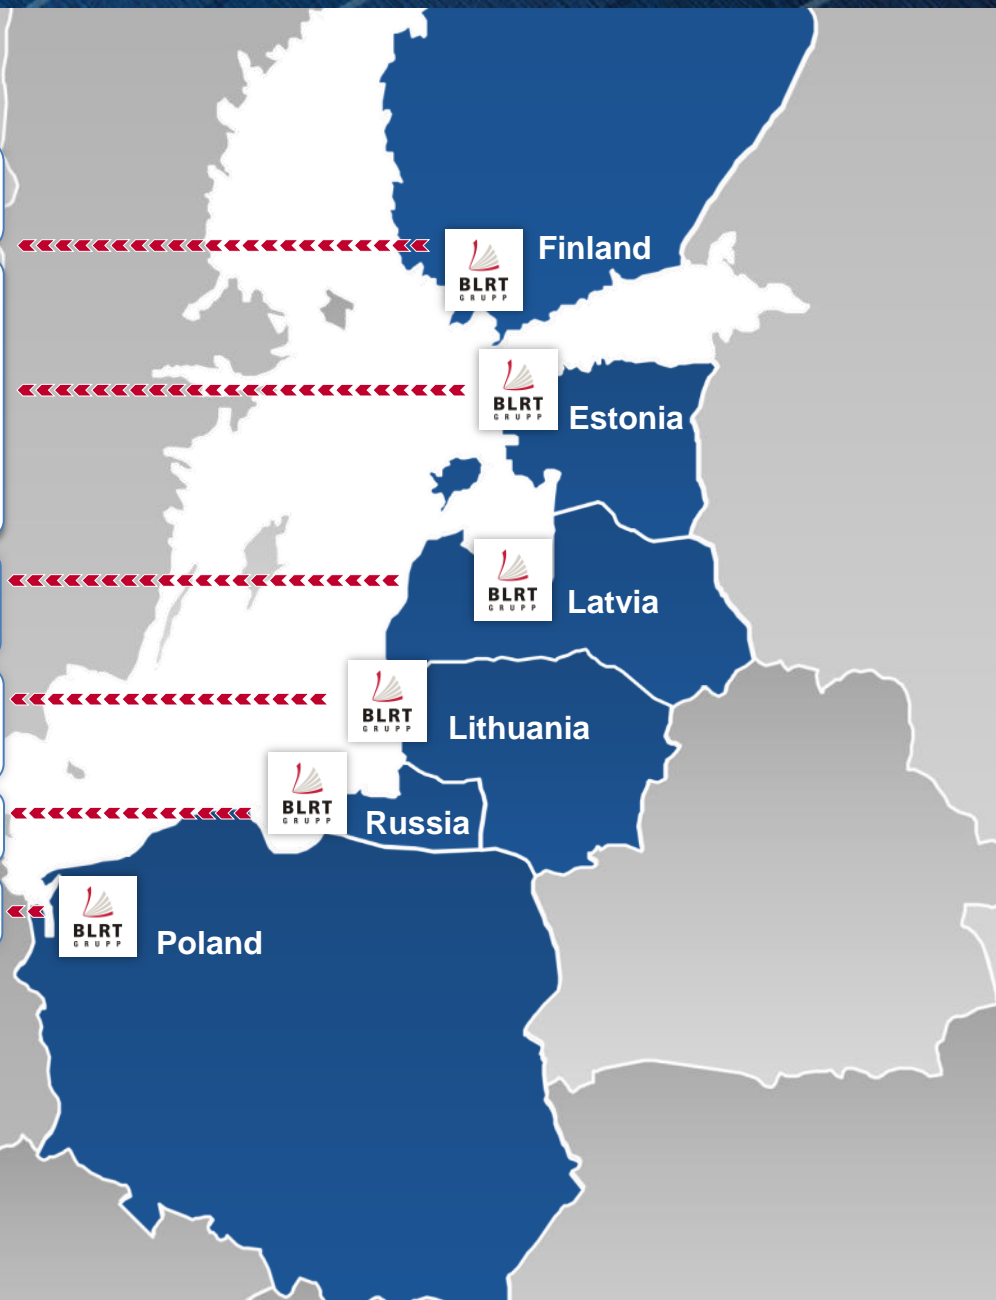

- 2 service centers
- 4 sales centers

Russia

- 1 sales center

Poland

- 1 sales center

- Passenger ferries *Saaremaa*, *Hiiumaa*, and *Muhumaa* built for Estonian shipping company Saaremaa Laevakompanii. Each ferry accommodates up to **690 passengers** and **160 cars**.

- LNG-powered passenger ferry *Boknafjord* delivered to Norwegian shipping company Fjord1. The ferry accommodates up to **600 passengers** and **242 cars**.

- Trailing suction hopper dredger *Macuti* built for Danish company Johs. Gram-Hanssen and designated for operating in Beira port (the Republic of Mozambique).

- Fishing trawler *Gitte Henning* S349, delivered on a turnkey basis to Gitte Henning A/S in 2014.

- Aluminum offshore wind farm service catamarans ordered by British company Sure Wind.

Latest Projects: Fish Farming Barges

We have built over **300** turnkey fish-farming barges.
Feed storage volumes of the barges vary **from 100 to 750 tons**.

Latest Projects: Refurbishment

- In 2012, we carried out the refurbishment of a well intervention vessel *Skandi Aker*. In 2010, the vessel won the “**Ship of the Year 2010**” award.

Latest Projects: Refurbishment

- BLRT Grupp repairs all ships operating in the Baltic Sea, including Aframax type vessels. For example, oil tanker *Nevskiy Prospect* was repaired in Turku Repair Yard's dry dock.

Latest Projects: Refurbishment

- Passenger ferry *Flekkeroy* of Norwegian company M Hjorteseth Shipping after the modernization. The hull and hull systems of the vessel were rebuilt and installed automation systems and radio aids.

Latest Projects: Metal Constructions

- We have been manufacturing reels and systems for laying and usage of different cables, hoses, wire ropes, fiber ropes and umbilical cables for **more than 6 years**.

Latest Projects: Metal Constructions

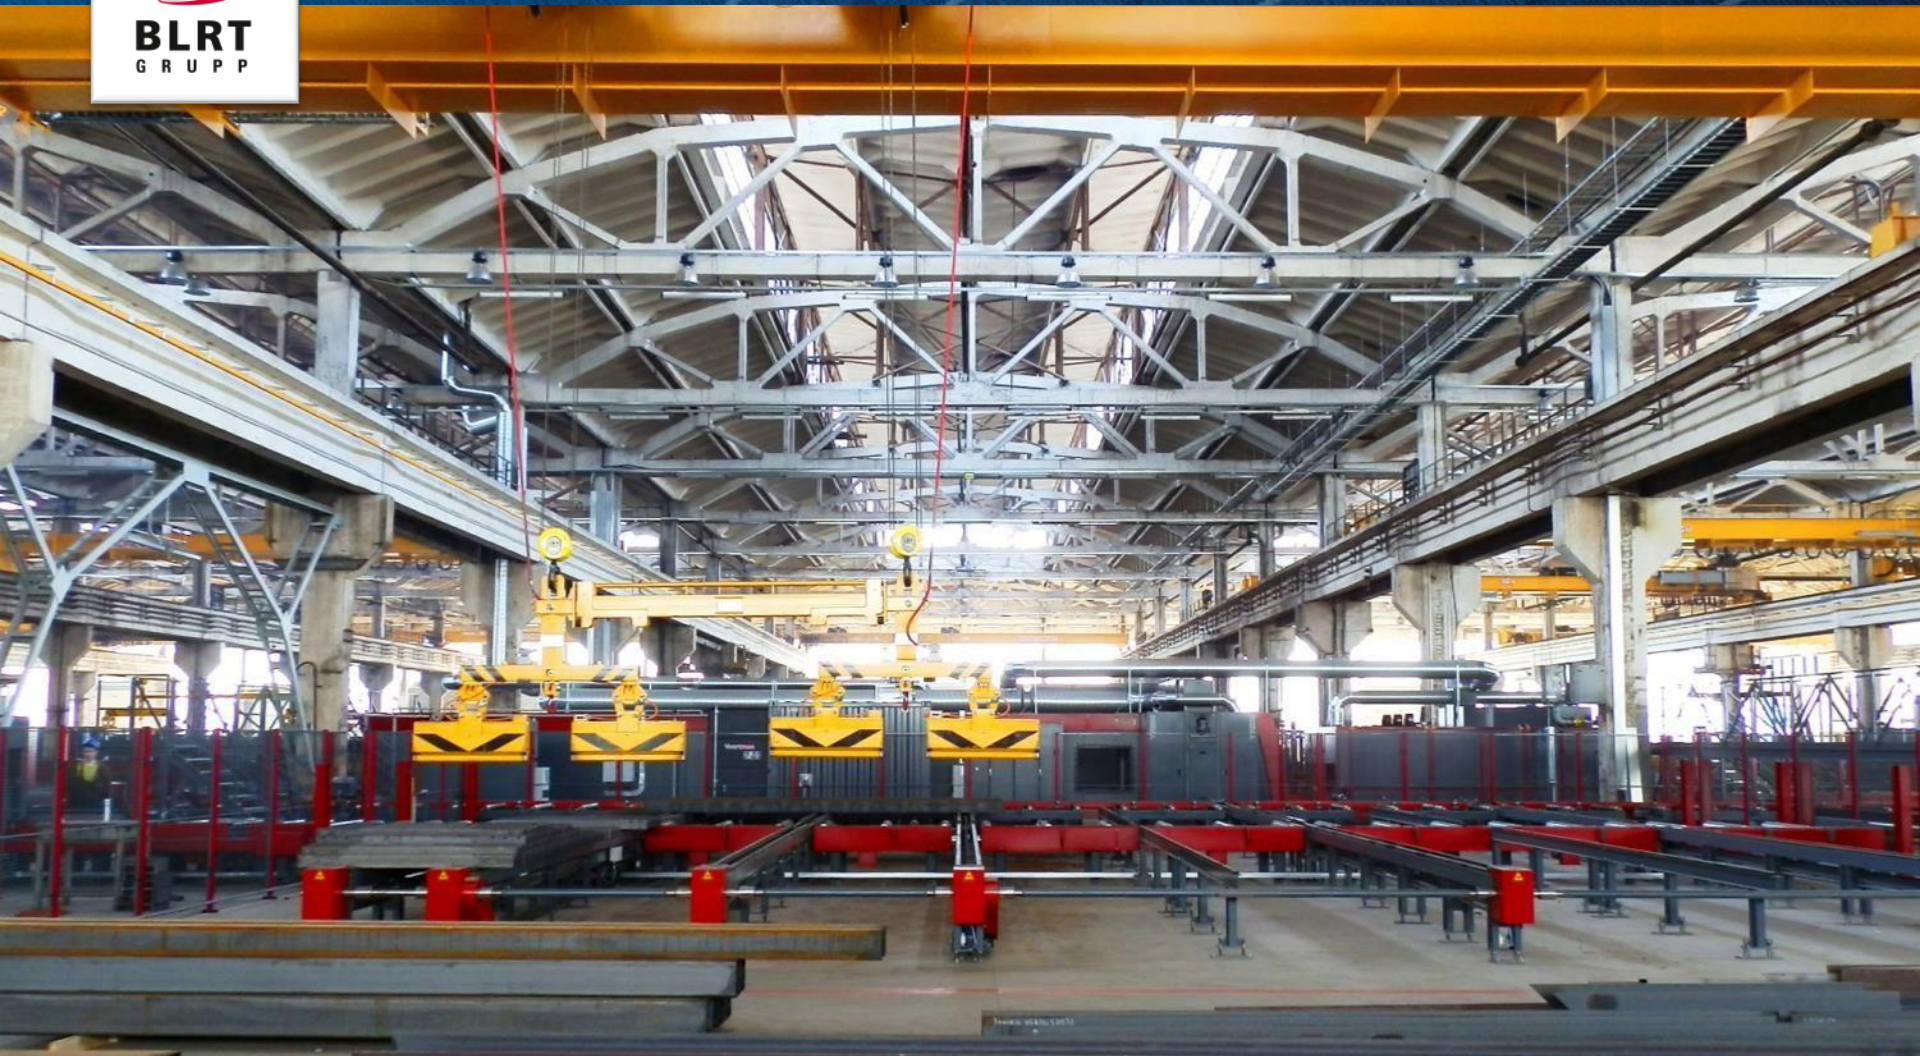

- For seven years, we have been manufacturing equipment for oil and gas platforms, including BOP (Blowout Preventer) overhead cranes with telescopic part.

Latest Projects: Metal Constructions

- In 2013, an unloader for one of the world's most efficient heating and power plants in Copenhagen was built.

Latest Projects: Metal Products Distribution

- New metal products manufacturing and service center in **Riga** (Latvia) was launched in 2012. This center is now the biggest of its kind in the Baltic States.

- In 2012 and 2013, new air separation plants in **Liepaja** (Latvia), **Dnepropetrovsk** (Ukraine) and **Vaivara** (Estonia, on the photo) were launched.

We are looking forward to a good cooperation!
